

Church Fenton Local Green Space Questionnaire

As part of Our Neighbourhood Plan we want to designate areas of **Local Green Space** in order to protect and preserve green spaces important to the local community. Once an area has been designated as a **Local Green Space**, new developments will not be considered (other than in special circumstances). The **Neighbourhood Plan Steering Group** would like to know, the areas that you think should be given **Local Green Space** status. Please complete the table using the **Guidelines** provided on the reverse (you can include as many areas as you like). Only include areas that are within the parish boundary (areas outside will **NOT** be considered, please see map on reverse). Once completed please return to **Church Fenton Post Office**.

Where is it? (Address/grid reference/ location description/name)	Why is it special? (Think about how it meets the guidelines)	What is it used for? (if known)
LAND SOUTH OF ST. MARY'S CHURCH	Beauty - bench on location to enjoy view historic significance - church + link to old vicarage Recreational value - the most extensively used footpath	<ul style="list-style-type: none"> • schools to walk to 'forest school' • dog walkers • children for nature walk • elderly / adults for health
	Tranquility - quiet walks in the countryside enjoying the rural nature of the village.	

Thank you for completing the questionnaire. We really appreciate your help in identifying areas of significance to be considered for **Local Green Space** status.
